

11/30/2018

School Community Council

In Attendance: Adam Gull, Nate Wright, Sasha Tew, Angela Larsen, Andrea Osborn, Lindsay Edvalson, Wendy Mason, Cara Vakalala, Morgan Foutz, Tarynia Garrett, Hattie Hutchings

### Review and Complete Goal #1

Adam discussed attendance and not being able to change a school policy we will continue with district policy.

We can do an incentive.

Policy is 5 unexcused absences (no matter when) parents will receive an official letter. Absences cannot be excused beyond 48 hours. At 10 unexcused absences get a second letter and have to meet with Adam about future absences.

Can discuss discussion with Goal #5

### Goal #1:

Measurement for success will be Dibels. (No changes as that is statewide.)

Supporting Professional Development Activities:

Question about summer reading program. Is that possible to do at this school?

That is something that can be paid from trustlands, how much is unclear.

Discussed summer library availability. Possibly shifting the time of the summer library, making it more available for people that work during the summer. Possibly do two days or two different time. A morning and an afternoon or mornings on Tuesday and afternoon on Thursday.

Maybe work in conjunction with City Library

How much money do we have to work with on goals? \$59,000 for all goals

Change to Goal #1: Action Item: If funding is available, implement summer reading program. And create more incentive for using Rees Library.

### School Improvement Plan Goal #2:

Goal from last year to improve 4th - 6th grade math scores from 67% to 69%.

We will look at numbers next time and discuss changes to the goal at next meeting.

Why is goal #1 for K-3 and goal #2 for 4-6.

Discussed CMI math and how that is helping with our schools. Whole school was trained a few years ago, currently we are doing a refresher and have 6-7 teachers working on their math endorsement.

Action Plan Items changes:

1. Question: Does ALEKS teach kids how to do it wrong? It only teaches one specific way. It really makes it more enriching for students that get ahead. It doesn't hold them back. It is really good program to help with monitoring.

No changes to action plan #1

2. No changes to action plan #2

3. Talked about how to help at home. Khan academy is a great place to find resources. Really like the ideas of videos available for students and parents at home.

4. No changes

5. No changes

Measurement of success: Rise

Supporting Professional Development Activities:

1. No changes

2. No changes

Dates

Next Meeting will be Dec. 11

Concerns:
